Each order of 10 will incur a deposit of £5 for the containers that the buffet is provided in.

We require this deposit as many customers do not return the containers and therefore as the cost is not built into the buffet costs, we are having to cover this cost – which we cannot continue to do.

The refund on the containers will be given on the return of undamaged containers. If containers are damaged then we will not accept them back, you may keep them.

Containers must be returned to the bakery during opening times (or our café, by prior agreement) no later than 2 weeks following the buffet delivery.
